3. Report activities in which members of the public assisted or participated in the meetings and in the implementation of the SWMP, including education activities or efforts such as cleanups, monitoring, storm drain stenciling, or others.

The EAC allows time each monthly meeting for public comment related to items not listed on the agenda to solicit feedback on stromwater concerns in the Township. The EAC requested volunteers for tree plantings in existing basins and in Township open space areas.

Characters Remaining: 3736

### MCM #2 Comments:

The Township maintains a written PIPP. This program provide the public with opportunities to participate in the decision-making process relevant to the stormwater permit and SWMP. In order to ensure the success of this program, the Township solicits public involvement from its populace and also provides enough time for the public to be aware of discussion opportunities related to local stormwater program.
